

HAGAR IBRAHIM MOHAMED

01001538653. hagaribrahim2344@gmail.com. Cairo,Egypt github.com/Hagarib

SUMMARY

Senior Computer Science student at Misr International University with a strong interest in software engineering, web development, and software quality assurance. Experienced through internships in Front-End Development using Angular and Software Testing using Selenium and Python. Skilled in developing full-stack applications, collaborating in team environments, and applying software engineering principles to real-world projects. Seeking a front-end role where I can bring Angular and React experience to production-grade web apps.

EDUCATION

Misr International University

Bachelor of Software Engineering in Computer Science Cairo, Egypt
Expected Graduation: 2026

Oct.2022- present

WORK EXPERIENCE

Front-End Developer Intern | Codxi

July 2024- Sep 2024

- Built responsive web interfaces using Angular.
- Integrated APIs and implemented UI components.
- Collaborated with developers to improve user experience and application performance.

Software Testing Intern | Codxi

July 2025- Sep 2025

- Developed automated test scripts using Python and Selenium.
 - Executed functional and regression testing.
 - Identified defects and documented test results.
-

PROJECTS

Web-Based OCL and AI Approach for Compliance Verification and Risk Analysis in Software

- Developed a web-based platform for compliance verification and software risk analysis.
- Integrated AI techniques to support requirement validation and risk assessment.
- Collaborated within a software engineering team environment.
- Technologies: Java Spring Boot, Python, React, SQL

Fitness AI Tracker

- Developed a mobile fitness tracking application powered by AI features.
- Designed functionality for tracking activities and monitoring user progress.
- Focused on usability and efficient data management.
- Technologies: Flutter, Supabase

Corporate Events Application

- Developed an event management system for organizing and tracking corporate events.
- Implemented event scheduling and participant management features.
- Designed backend services and database integration.
- Technologies: Java Spring Boot

TECHNICAL SKILLS

Programming Languages

Java,Python,JavaScript,C++

Frontend Development

Angular,HTML,CSS,JavaScript

Backend Development

Spring Boot,REST APIs

Mobile Development

Flutte

Testing

Selenium,Automated Testing,Test Case Design

Tools

Git,GitHub,VS Code,Postman,IntelliJ IDEA,Figma

SOFT SKILLS

- Teamwork
 - Communication
 - Problem Solving
 - Time Management
 - Agile/Scrum Collaboration
-

CERTIFICATIONS

- User Experience Design — IBM SkillsBuild (April 2026)
 - Cybersecurity Fundamentals — IBM SkillsBuild (March 2026)
-

LANGUAGES

- Arabic (Native)
- English (Very Good)
